Use the illustration above to answer questions 5-9:

- Circle the area you would click on to view existing orders
- Place an X over the area that you would click to see new orders that have been placed in the system
- Circle the icon you would select to enter allergies into the system
- Circle the icon you would select to suspend your session
- Circle the tab that you would select to enter vital signs in the system for your patient

Circle the best possible answer for the following question:

10. What does the following icon  allow you to do?
- Go to the DeKalb Medical Intranet Page
 - View additional information about results
 - Enter the Vitals flowsheet
 - Select a patient

Using the below illustration, enter the following vital signs for your patient taken at 2:00(Q10-14):

The screenshot shows a software interface for recording vital signs. At the top, there are tabs for 'Patient List', 'Orders', 'Results', 'Documents', 'Flowsheets', 'Patient Info', and 'Clinical Summary'. Below the tabs is a toolbar with various icons. The main area is titled '3. Vital Signs (ICU/Telemetry), From Apr-18-2011 to Apr-19-2011' and includes 'Save' and 'Cancel' buttons. The interface features a grid with columns for dates and times: Apr-19-2011 0:00, Apr-19-2011 1:00, Apr-19-2011 2:00, Apr-19-2011 3:00, Apr-19-2011 4:00, Apr-19-2011 5:00, and Apr-19-2011 6:00. On the left, there is an 'Options Panel' with a list of vital signs, each with a checkbox and a description of the measurement units and methods.

	Apr-19-2011 0:00	Apr-19-2011 1:00	Apr-19-2011 2:00	Apr-19-2011 3:00	Apr-19-2011 4:00	Apr-19-2011 5:00	Apr-19-2011 6:00
<input type="checkbox"/> Vital Signs							
<input type="checkbox"/> BP (Noninvasive) Systolic Diastolic MAP (mm Hg)							
<input type="checkbox"/> Heart Rate HR (/min) Source							
Cardiac Rhythm (ECG)							
<input type="checkbox"/> Respirations Resp Rate (/min) O2 Sat (%) Oxygenation Oxygen Rate (L/Min) Oxygen Concentration (%) Method							
<input type="checkbox"/> Temperature F Fahrenheit							

11. BP - 120/95

12. Pulse - 104

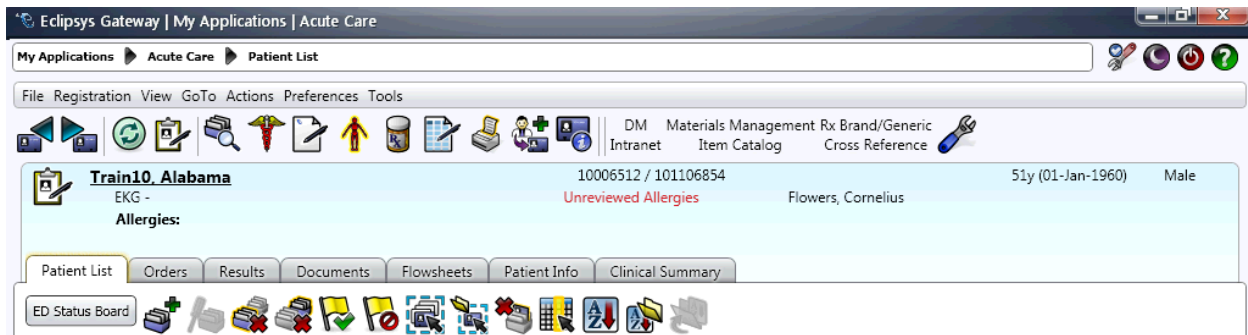

13. Respirations - 26

14. Temperature - 97.3

15. Why would you add a time column to a flowsheet?

- A. To document your clinical rotation hours
- B. To make the column look neater
- C. To document the actual time the vitals were taken
- D. To document the time you want to take the vitals

16. In the illustration below, circle the icon you would use to access the patient profile:

17. How would you enter the height and weight of a patient?

- A. From the patient profile, click on the Height and Weight expandable section
- B. Click on the patient header area located on the default screen
- C. You can not enter height and weight for a patient in the Acute Care System
- D. None of the above

18. A "No Information" patient means that you should tell all inquiries there is no patient here by that name?

- A. True
- B. False

19. You can use the patient profile to record:

- A. Allergies
- B. Height and Weight
- C. All required patient information
- D. All of the above

20. Fill in the description based on the color flag you would see in the results column:

Flag Color	Description
Green	
Red
